

## Live Love Animal Rescue

| BASIC DATA MATRIX  |   | Version 7.2017 |                       |                    |       |  |
|--------------------|---|----------------|-----------------------|--------------------|-------|--|
|                    |   | Canine Adult   | Canine Up to 5 months | Canine Unknown age | Total | Explanation  |
| <b>A</b>           | Beginning Animal Count (date: __/__/2016__) | 0              | 0                     | 8                  | 8     | Should include animals in shelter and animals admitted but currently in foster care or other offsite facility.   |
| <b>LIVE INTAKE</b> |   |                |                       |                    |       |  |
| <b>B</b>           | Stray/at large                              | 0              | 0                     | 68                 | 68    | Admitted through animal control/stated to be unowned or free-roaming.  |
| <b>C</b>           | Relinquished by owner                       | 0              | 0                     | 30                 | 30    | Admitted by owner, including adoption returns after 30 days.   |
| <b>D</b>           | Owner Intended euthanasia                   | 0              | 0                     | 0                  | 0     | Limited to this definition: Admission of pets whose owner brought the pet to the shelter with the INTENT of requesting euthanasia.                                   |
| <b>E</b>           | Transferred in from agency                  | 0              | 0                     | 18                 | 18    | An admission from another agency, for adoption, large scale seizure support, etc.  |
| <b>F</b>           | Other intakes                               | 0              | 0                     | 0                  | 0     | Impounds for cruelty cases & protective custody. Also, pets born while in care, and other types of admission not captured above.                                     |
| <b>G1</b>          | TOTAL LIVE INTAKE                           | 0              | 0                     | 116                | 116   | Sum of B, C, D, E and F by Species & Age   |
| <b>G2</b>          | TOTAL LIVE INTAKE                           |                |                       |                    | 116   | Sum of B, C, D, E and F by Species only  |
| <b>OUTCOMES</b>    |   |                |                       |                    |       |  |
| <b>H</b>           | Adoption                                    | 0              | 0                     | 106                | 106   | Final adoptions only, having permanently left the agency's possession. For example, it does NOT include animals placed in foster care or on overnight 'trial' stays. |
| <b>I</b>           | Returned to owner                           | 0              | 0                     | 12                 | 12    | Stray or Owner Relinquished animals returned to their owner.   |
| <b>J</b>           | Transferred to another agency               | 0              | 0                     | 0                  | 0     | Transferred out of the agency's possession to another entity.  |
| <b>K</b>           | Return to field                             | 0              | 0                     | 0                  | 0     | Animals included in intake, altered and returned to stray capture location to be released (this is not TNR, see TNR/RTF in definitions).                             |
| <b>L</b>           | Other live outcome                          | 0              | 0                     | 0                  | 0     | Barn cat programs, etc.  |
| <b>M1</b>          | SUBTOTAL LIVE OUTCOMES                      | 0              | 0                     | 118                | 118   | Sum of H, I, J, K and L by Species & Age   |
| <b>M2</b>          | SUBTOTAL LIVE OUTCOMES                      |                |                       |                    | 118   | Sum of H, I, J, K and L by Species   |
| <b>N</b>           | Died in care                                | 0              | 0                     | 0                  | 0     | Animals who die, unassisted, while sheltered.  |
| <b>O</b>           | Lost in care                                | 0              | 0                     | 0                  | 0     | Animals whose outcome is unknown (may have escaped the shelter, outcome was not recorded and unknown).   |
| <b>P</b>           | Euthanasia                                  | 0              | 0                     | 1                  | 1     | All euthanasia other than that performed by the definition below as owner intended euthanasia.   |
| <b>Q</b>           | Owner intended euthanasia                   | 0              | 0                     | 0                  | 0     | Limited to this definition: Euthanasia of pets whose owner brought the pet to the shelter with the INTENT of utilizing euthanasia services.                          |
| <b>R1</b>          | SUBTOTAL: OTHER OUTCOMES                    | 0              | 0                     | 1                  | 1     | Sum of N, O, P and Q by Species & Age  |
| <b>R2</b>          | SUBTOTAL: OTHER OUTCOMES                    |                |                       |                    | 1     | Sum of N, O, P and Q by Species only   |
| <b>S1</b>          | TOTAL OUTCOMES                              | 0              | 0                     | 119                | 119   | Sum of M.1 and R.1 by Species & Age  |

|  |  |     |     |       |       |   |
|--|--|-----|-----|-------|-------|---|
| <b>S2</b>  | TOTAL OUTCOMES                           |     |     |       | 0     | <i>Sum of M.2 and R.2 by Species only</i>   |
| <b>T</b>   | Ending Animal Count (date: __/__/2016__) | 0   | 0   | 124   | 124   | <i>Should include animals in shelter and animals admitted and currently in foster care or offsite facility.</i>   |
|  | <b>Live Release Rate</b>                 | N/A | N/A | 95.2% | 95.2% | ASPCA Live Release Rate take all live releases and divide that number by all live intake (=M2/T). This does not account for animals that are still in care and the save rate will be low when the rescue is full. |
|  | <b>Save Rate</b>                         | N/A | N/A | 99.2% | 99.2% | Save rate is normally reported as intake minus euthanasia divided by intake ( $=((G2+A)-(P+Q))/(G2+A)$ ). This accounts for all animals that have been euthanized.  |
| Note: To check your statistics and calculations - A plus G.2 should equal S.2 plus T |  |     |     |       |       |   |
| Total Column for Rows A + G.2 =  |  | 124 |     |       |       |   |
| Total Column for Rows S.2 + T =  |  | 124 |     |       |       |   |
